1. At your request I discussed Lew Allen's NSCID 9 letter with [REDACTED] this date. Noting that the DCI had already forwarded the proposed NSCID 9 to Dr. Kissinger for approval on 11 December, our conversation concentrated on the need for the DCI acknowledging NSA's role in these endeavors.

2. [REDACTED] agreed to draft a memorandum for the DCI's signature to NSA. The memorandum would also propose a means to incorporate the wishes of the DCI. If Lew Allen agrees with the proposal, [REDACTED] envisions a subsequent memorandum of agreement. I suggest that any proposal on this subject also be coordinated with the FBI. His thinking at this moment is that the memorandum of agreement could well be one between CIA, NSA and FBI.

3. As a sidelight, [REDACTED] wondered about the meaning of the DCI's last comment: "Also, CIA should be able to act in coordination with NSA (like FBI)". Ed points out this coordination now exists, in fact there are some current operations involving all three agencies.

4. [REDACTED] draft will be coordinated with you prior to submission to the DCI.
